Schematic diagram

Battery Features

- Large battery capacity: the VAPE PEN 22 has a built-in 1650mAh rechargeable battery.
- 2.8 seconds protection: the white LED light will blink 5 times when the power button is held for longer than 8 seconds, and the battery will automatically shut down the output.
- Resistance protection: when the atomizer resistance is lower than 0.1 ohm or higher than 2.5 ohms, the white LED light will blink 4 times and the battery will automatically shut down the output.
- Short circuit protection: if a load short circuit is detected, the white LED light will blink 4 times and it will automatically shut down the output.
- Low voltage protection: when battery capacity is lower than 3.3V, the LED light will blink 15 times and the battery will automatically shut down the output.
- Battery life indicator: The battery life indicator will blink 4 times each time you take a puff.

Operation Guide VAPE PEN 22

- To turn power on/ off: fast press power button 5 times in succession to power on or off, and the white LED light will blink 3 times.
- Long press the power button to vape, and the LED light will turn white; without atomizer, the white LED light will blink 4 times.
- To charge the battery via the USB cable included. When it is charging, the charging indicator will turn red, and when it is fully charged the indicator will be off.

Tank How to fill with e-liquid:

Before fill the e-juice, the user had better drip some e-juice on the coil head for better e-juice saturated and avoid coil heating without liquid.

- The tank uses top refill system, you just need to hold the tank with one hand, and use another one to screw off its drip tip and top cap,

- Add e-liquid through the slot, and pay attention not to drip in into the central airflow tube.

- Close the cap carefully and firmly. Then let it stand for several minutes to get the organic cotton completely saturated.

Replace atomizer core:

Firstly, screw off the drip tip, top cap and glass tube; then screw the atomizer core off the base part, and replace with a new one.

Attentions

- Please read the manual carefully before vaping.
- Please make sure the spring-loaded connector cannot be blocked before installing atomizer, in case of feeling suffocated when you are vaping.
- Please do not keep the liquid inside the tank if it is not going to be used for a long period.
- Please refill the tank when the e-liquid is nearly used out to avoid dry-burning of the atomizer.
- Please do not drop, throw or mishandle this product as the outer shell or inner components may become damaged.
- Please keep it away from excessive temperature and humid environment in order to prolong the operation of your product.
- Please keep this product away from children and pregnant women.
